

CSKT Mission Statement (March 1996)
Source: 2002 Congressional Testimony
Senate Committee on Indian Affairs

Our mission is to adopt traditional principles and values
in all facets of tribal
operations and service. We will invest in our people in a
manner that ensures
our ability to become a completely self-sufficient society
and economy.

We will strive to regain ownership and control of all lands
within our
reservation boundaries. And we will provide sound
environmental
stewardship to preserve, perpetuate, protect and
enhance natural resources and
ecosystems.
